

CUP

traditional

The cup works. If you want to drink from it, use strong paper such as bond letter paper or a brown grocery bag.

1. Fold in half diagonally.

2. Bring one side edge to bottom edge, but don't crease hard. Just pinch where the fold reaches the other side edge. Unfold.

3. Bring bottom corner opposite pinch to the pinch mark. Fold hard.

4. See the pocket in the flap you have just made? Fold one layer of paper above the pocket downward and push it into the pocket as far as it will go.

5. Flap is now locked into place. Turn over.

6. Repeat steps 3-4 on this side.

7. Finished Cup!

8. Made of about 20 inches square, the cup becomes a hat!
